-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Alwerud

(5,326,481).

3. Alwerud '481 teaches a method for treating water in a swimming pool to maintain a predetermined level of chlorine over a period of time, comprising using a computer (3) to control the delivery of chlorine to the pool by operating a chlorine pump (9). The computer is calibrated to provide a chlorine dose based on the volume of the pool in gallons and a known consumption amount of chlorine based on the temperature (see figure, col. 1, lines 40-59, col. 2, lines 28-59, col. 3, lines 1-22, table, claim 1). Chlorine dosage is figured in gallons, which can be converted to ounces without any motivation to modify the disclosed process.

***Allowable Subject Matter***

4. Claims 1-10 are allowed.

5. The following is an examiner's statement of reasons for allowance: Reasons for allowance are given in the previous office action. The outstanding objections and indefiniteness rejection have been overcome and are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

6. Applicant's arguments filed February 9, 2006 have been fully considered but they are not persuasive. Applicant argues that the Alwerud reference fails to disclose using the equation  $MD=(PV)(DC)$  as defined in the claim can be used to calculate the maintenance dose of the chemical, however it is submitted that this is inherently disclosed because the patent teaches calculating the dosage in gallons based on the volume of the pool and the consumption rate of chlorine.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
